DETAILED ACTION

Allowable Subject Matter

1. Claims 2-4, 6-28 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 4, 6, 10-12 and 27 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches an image processing apparatus comprising a third processing unit to receive image data output from a first processing unit, which sequentially convert and output image data stored in a memory device, and data output from a second processing unit to process the image data output from the first processing unit based on the data output from the second processing unit, wherein same image data is input into the memory device and the second processing unit in parallel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
